

INSTRUCTIONS FOR FILING FLOODPLAIN PERMIT APPLICATIONS

Anyone building a structure in Bolivar County, remodeling a home, setting up a mobile home, or relocating a mobile home is required to complete a Floodplain Permit Application.

You may do this by coming to the Bolivar County Administrator's Office any time between the hours of 8:00 a.m. - 5:00 p.m. Monday through Friday.

An E-911 address of your property, as well as a legal description of your property is necessary for proper identification.

If it is determined that your property is located within a flood zone area, an Elevation Certificate from an engineer will be necessary before your application can be completed.

There is no charge for this service.
